### ANNOUNCEMENT AND CALL FOR PAPERS

---

---

The Pecora XI Memorial Symposium, which honors the memory of Dr. William T. Pecora, former director of the U.S. Geological Survey, Under Secretary of the Department of the Interior, and a pioneer in the development of Earth-observing satellite systems, will be held in Sioux Falls, South Dakota, May 5-7, 1987.

The theme of the symposium will focus on domestic and foreign satellite land remote sensing programs, with perspectives on commercialization of present and future programs, sensor and satellite systems, and discipline applications in satellite remote sensing and related technology.

Tours and demonstrations will be offered at the USGS EROS Data Center.

The program will consist of invited and open-solicitation papers and a poster session. Proceedings will be published soon after the symposium.

For a paper to be considered by the Program Committee, a detailed abstract must be submitted by December 1, 1986. Abstracts should not exceed 200 words and must include the paper's title and author(s)' name(s) and affiliation(s). A separate page with the authors' complete mailing addresses (including position and institution) and telephone numbers must accompany the abstracts. Please clearly indicate the name of the senior author and whether the paper is intended as a poster session or oral presentation. Manuscripts for publication in the proceedings will be due May 1, 1987.

Instructions for format of posters and for camera-ready copy of accepted papers will be forwarded to the senior author of the paper.

Abstracts should be mailed to the Chairman of the Technical Program Committee:
