

significantly affect the quality of the environment. However, even though action on the project was initiated prior to January 1, 1970 and the project will not significantly affect the quality of the environment in the area, all possible measures are being taken in the planning, design, construction and operation, to avoid any adverse environmental consequences.

Your early approval will be appreciated as we plan to authorize the Foundation to solicit proposals for construction and financing as soon as the construction agreement is executed and the documents are approved.

W. A. Radlinski
