Subject: Ninth William T. Pecora Memorial Remote Sensing Symposium, Sioux Falls

The Pecora IX Symposium will be held October 2-4, 1984, in Sioux Falls, South Dakota. As indicated in the attached announcement, the symposium will focus on the wide variety of spatial information technologies germane to the remote sensing community.

So that we may coordinate Division presentations, please submit any suggestions for papers to this office by March 26. If we do not receive a response from you by that date, we will assume you have no suggestions to offer for this year's symposium.

Gary W. North

Pecora IX

The Ninth William T. Pecora Memorial Remote Sensing Symposium
October 2, 3, and 4, 1984 • Howard Johnson Convention Center • Sioux Falls, SD

SPATIAL INFORMATION TECHNOLOGIES FOR REMOTE SENSING TODAY AND TOMORROW

The Pecora Symposium will focus on the wide variety of spatial information technologies germane to the remote sensing community. The purpose of the meeting is to expose the participants to all aspects of computer spatial data handling, an area which now involves a variety of disciplines. Topics will include:

- GEOGRAPHIC INFORMATION SYSTEMS
- ARTIFICIAL INTELLIGENCE
- NATURAL LANGUAGES
- DATABASE DESIGN
- CARTOGRAPHY
- ADVANCED INTERPRETATION TECHNIQUES
- COMPUTATIONAL GEOMETRY
- TECHNOLOGY INTEGRATION
- GRAPHICS & DISPLAYS
- HARDWARE

Critical technological and scientific requirements will dictate how the remote sensing community will perform today and tomorrow. Therefore, this symposium's goal is to bring together managers, technologists, and scientists from leading private, government, and university sectors to display and present the latest research developments.

CALL FOR PAPERS

Authors: Submit a summary (500 words) or full paper (preferred) including title, author, address, and office and home telephone numbers before April 24, 1984, to Dr. Haralick, Program Chairman.
