"Satellite Land Remote Sensing: *Current Programs and a Look to the Future*"

RE: OAB10-59

October 23, 1986

Memorandum

To: Technical Program Committee
From: Chairman, Pecora XI Technical Program Committee
Subject: Pecora XI Technical Program Planning Meeting

The initial meeting of the Technical Program Committee for the Pecora XI Symposium will be held at the EROS Data Center on October 29, 1986, from 8:30 a.m. to 3:00 p.m. in the Technical Development and Applications Branch Conference Room. The purpose of the meeting is to define the technical sessions, themes, and chairpersons, to discuss procedures for review and acceptance of papers, and to identify potential speakers for presentation of invited papers. Bill Draeger, Chairman, Pecora XI Committee, will provide our group with a status report on the theme objectives of the symposium, organizational arrangements, plans and activities to date, and tentative schedule of events. Our group will focus on the technical program.

own calendar

The theme of Pecora XI Symposium is "Satellite Land Remote Sensing - Current Programs and a Look to the Future." We need to think about innovative topics that should be presented during the two and one-half days of technical sessions that will be informative and stimulate enthusiasm. Bring your ideas to the planning meeting on the 29th.

I am looking forward to an interesting and productive meeting.

Donald G. Orr
