

Bear Glacier, Alaska, USA

Bear Glacier, Alaska, USA 1994–2020

Bear Glacier is an outlet glacier of the Harding Icefield in Kenai Fjords National Park, Alaska. As it retreats, its proglacial lake, called Bear Glacier Lagoon, has expanded. Large icebergs now float in the lagoon, visible in the Landsat images as light blue spots in the water. People can go kayaking among the icebergs.

Date	Satellite	Bands	Res	Path	Row
Sept. 27, 1994	Landsat 5 TM	7,4,2	30 m	68	18
Sept. 9, 2020	Landsat 8 OLI	7,5,4	30 m	69	18

Earthshots: Satellite Images of Environmental Change

The U.S. Geological Survey Earth Resources Observation and Science (EROS) Center archives data from the Landsat satellites (1972–present). Earthshots presents environmental changes using Landsat images.
