

# Sabah Al Ahmad Sea City, Kuwait

## Sabah Al Ahmad Sea City, Kuwait 1994–2021

Rather than build artificial islands in the sea to extend the country's coastline, this project brings the sea to the desert. The design of Sea City follows existing tidal creeks to bring water inland from the Persian Gulf. The tides naturally flush the lagoons to keep the water circulating.

Date	Satellite	Bands	Res	Path	Row
July 1, 1994	Landsat 5 TM	7,4,2	30 m	165	40
Apr. 6, 2021	Landsat 8 OLI	7,5,4	30 m	165	40

### Earthshots: Satellite Images of Environmental Change

The U.S. Geological Survey Earth Resources Observation and Science (EROS) Center archives data from the Landsat satellites (1972–present). Earthshots presents environmental changes using Landsat images.
